

PURE OFFICES

Perfect Communication

We understand that thriving businesses rely on developing great customer and supplier relationships.

We provide a phone system designed for the demands of modern day businesses. Our phones are packed with handy features to help you run your business effectively. The Pure Offices infrastructure also has dedicated bandwidth for voice calls and incredibly low call costs. Need to work from home? Take a handset home and benefit from free calls into the office and from our low cost tariff on out going calls, all instantly billed to the company account.

Features

No Contracts

A phone handset and number is included with the office rental. Your numbers are transferable (in and out).

Business Features

Options for multiple DDI's, call forwarding to mobiles and even 100 person conference calls!

Low Call Costs

Just 2p per minute for most national and international calls.

Flexibility

A choice of geographic or non-geographic numbers to suit your business and customer needs.

Easy & Great Value!

"The Pure Offices phone system makes it easy to run our business and communicate with our customers and suppliers effectively. The phones are very easy to use and full of useful features - from conference calling to call diversion. The call costs are exceptionally low too. They were also in place for when we moved in - guaranteeing business continuity."
