

PURE OFFICES

SMART & AFFORDABLE SERVICED OFFICES THROUGHOUT THE UK

SERVICED OFFICES

Light, bright and well connected office space. Flexible contracts, great value for money.

MEETING ROOMS

Contemporary space to deliver productive and collaborative meetings.

VIRTUAL OFFICES

Businesses can develop from home whilst projecting a professional image with address and post box.

CO-WORKING

Some of our centres feature co-working space to help startups and freelancers grow their business.

ABOUT PURE OFFICES

Our 20 centres throughout the UK provide smart connected offices designed with the end user in mind. We provide contemporary offices with instant fast broadband, telephone lines and integrated network cabling so businesses can move in quickly and get to work with minimal downtime.

The offices are priced on the space a business takes rather than the workstations required. Our simple and clear monthly rolling contracts provide the flexibility needed for modern businesses.

Our centres are also fully managed; we take care of the building allowing businesses to focus on their growth and development.

PURE OFFICES

MORE THAN JUST OFFICE SPACE

FLEXIBLE

Our office contracts offer a genuine easy-in easy-out experience with a simple and transparent one-month rolling contract.

AFFORDABLE

Our offices are priced on a straightforward and transparent structure based on the room size. There's no hidden catches or extras and no "per workstation" charges!

MANAGED

All our centres have on site managers who will help find the perfect office for businesses and thereafter take care of running the building so occupiers can focus on growing their business.

CONNECTED

To help businesses get up and running straight away, we have network cabling, fast broadband, telephone line and a phone with a number - all in place for when they move in.
